PARADISE
HEALTHCARE

Corporate Profile 2026

KSMs • API Intermediates • Specialty Chemicals • Biocides • CDMO

Chemistry-led manufacturing.
R&D-driven development.
Dependable global supply.

Nandesari GIDC, Vadodara, Gujarat, India | www.paradisehealthcare.in

Company Snapshot

India-based manufacturer and development partner with a focused platform in pharmaceutical intermediates, specialty chemicals, biocides and custom manufacturing.

Established
2014

Commercial Operations
2018

Manufacturing
Nandesari GIDC, Vadodara

Dedicated R&D
BIDC, Gorwa, Vadodara

Growth Direction

Portfolio expansion • R&D-led development • export market growth • long-term supply partnerships

Future Expansion – Greenfield Manufacturing Site: Saykha GIDC, Bharuch, Gujarat, India

INTEGRATED CAPABILITIES

What We Offer

Iodine Chemistry Focus

Iodinated organic compounds, IPBC chemistry and iodine-derivative intermediates.

Pharma Intermediate Base

KSMs, advanced intermediates and custom molecules for customer requirements.

Biocides Platform

IPBC Technical and related solutions for paints, coatings and industrial applications.

CDMO Support

Customer-specific development from lab trials through scale-up and commercial supply.

Process Excellence

Yield improvement, impurity control, recovery / recycling and cost optimization.

Specialty Chemicals

High-value and customized chemical products for industrial and specialty applications.

R&D → Process Optimization → Scale-up → Manufacturing → Quality Release → Customer Supply

R&D & Reaction Capabilities

Dedicated R&D supports new products, troubleshooting, scale-up, customer-specific optimization, impurity control and cost reduction.

Development pathway

Laboratory Development → Process Optimization → Scale-up → Commercial Manufacturing

R&D Vision: Import-substitute development • iodine derivatives • impurities • CDMO growth

Core Reaction Capabilities

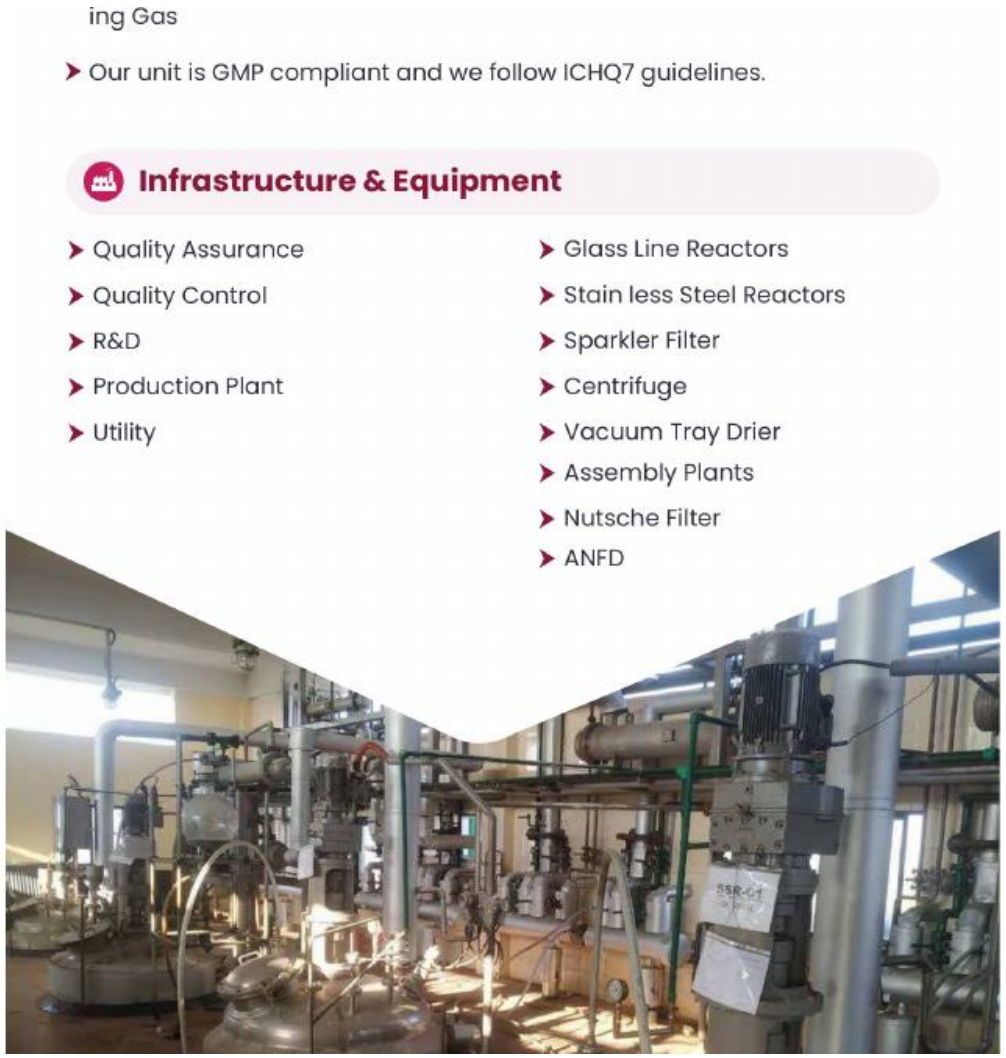

- Chlorination
- Bromination
- Iodination
- Nitration
- Suzuki Coupling
- Alkylation
- Condensation
- Diazotization
- Esterification
- Hydrogenation
- Reduction
- Oxidation
- Hydrolysis
- Amination
- Acylation

Manufacturing & Quality Strengths

Operational discipline supporting safe, consistent and scalable supply.

- Manufacturing facility at Nandesari GIDC, Vadodara
- Production, utilities, QC and QA support
- Process control and optimization
- Analytical testing and characterization
- Batch-to-batch consistency
- Documentation and traceability
- Applicable customer and regulatory requirements

Quality mindset: Right-first-time documentation • traceability • customer specification focus

Iodinated Organic Compounds

Product	CAS No.	End Use
Methyl 2-iodobenzoate	610-97-9	Montelukast Sodium
2-Iodobenzoic acid	88-67-5	Intermediate
Iodobenzene	591-50-4	Intermediate
Iodobenzene Diacetate	3240-34-4	Intermediate
3-Iodo-2-Propynyl Butylcarbamate (IPBC)	55406-53-6	Biocides

Strategic Focus: Iodination capability • Biocides platform • Pharma intermediate applications

Commercialized Product Portfolio

Representative Product	CAS No.	End Use
Montelukast Acid	158966-92-8	Montelukast Sodium
Montelukast Dicyclohexamine Salt	577953-88-9	Montelukast Sodium
2-[1-(Mercaptomethyl)cyclopropyl]-acetic acid	162515-68-6	Montelukast Sodium
6-Chloro-4-hydroxy-2-methyl-N-(2-pyridinyl)-2H-thieno[2,3-e][1,2]thiazine-3-carboxamide 1,1-dioxide	70374-39-9	Lornoxicam
Methyl-5-chloro-3-chlorosulfonyl-2-thiophene carboxylate	126910-68-7	Lornoxicam
Methyl-3-sulfonyl amino methyl acetate-2-thiophene carboxylate	106820-63-7	Tenoxicam
Methyl 6-bromo-2-naphthoate	33626-98-1	Adapalene
Trimethylsulfoxonium Iodide	1774-47-6	Fluconazole

Representative portfolio. Additional commercialized intermediates are available in the detailed company product list.

Development Pipeline

Pharma / Specialty Pipeline

1-Bromo-2-methoxy-3-nitrobenzene — 98775-19-0
2-Bromo-6-nitrophenol — 13073-25-1
2'-hydroxy-3'-nitro-[1,1'-biphenyl]-3-carboxylic acid — 376591-95-6
(R)-1-Benzyl-5-methyl-1,4-diazepane — 1620097-06-4
5-Methyl-2-(2H-1,2,3-triazol-2-yl)benzoic acid — 956317-36-5
2-(4-Ethyl-3-iodophenyl)-2-methylpropanoic acid — 1256584-73-2

Iodinated Compounds – Under Development

2-Chloro-5-iodobenzoic acid — 19094-56-5
Diiodomethane — 75-11-6
N-Iodosuccinimide — 516-12-1
1-Chloro-3-iodopropane — 6940-76-7
3-Iodooxetane — 26272-85-5

Market Reach & Customer Orientation

Growing international footprint with responsive communication, dependable delivery and technical support.

North America

USA
Mexico

Europe & CIS

UK
Russia

South Asia

India
Bangladesh
Nepal

Pharma Markets

China
Spain
Japan
Other regions

Customer Focus

Responsive communication • dependable delivery • technical support • long-term partnership

FROM REQUIREMENT TO COMMERCIAL SUPPLY

CDMO Partnership Model

Requirement Review | **Lab Development** | **Optimization** | **Scale-up** | **Commercial Supply**

Development Services

Process development & optimization
Custom synthesis & intermediate development
Laboratory-to-scale-up support

Commercial Services

Cost optimization & process improvement
Commercial manufacturing
Customized KSMs, intermediates & specialty chemicals
